MEMORANDUM FOR THE COMPTROLLER

1. The Director and I want you to present this problem to the Financial Policy and Budget Committee to make a rather searching analysis of the budgetary requirements for FY 1963. We think it would be helpful to have General Lansdale present for this.

2. Upon completion of this analysis, the Director will wish to present the matter to the Special Group (Augmented) for the express purpose of eliciting a policy decision as to whether or not we are headed in the right direction and with the proper order of magnitude of budgetary requirements.

Marshall S. Carter
Lieutenant General, USA
Deputy Director
